

One of only two female 9 - dan professional go players in the world. Former women's world champion and national champion of China. Founder of the Feng Yun Go School. Mother of two girls.

**FENG YUN**  
PROFESSIONAL 9 DAN

## FENG YUN GO SCHOOL

Founded in 2002 with the goal of spreading and promoting Go. Many of our students have shown rapid improvement and have won local and national championships - but our greatest satisfaction comes when any student learns to enjoy the game.

### LOCATIONS

New Jersey:  
Livingston, Parsippany,  
Princeton  
Piscataway  
(Rutgers University)  
New York:  
Manhattan, NYC

### TEACHING PROGRAM

#### Youth Classes

Weekly lessons with other children of a similar skill level. Classes feature a great variety of activities including short lectures, problem solving, intraclass games and game reviews. Classes are offered for beginners, intermediate and advanced players.

#### Private Lessons

Private lessons are available online and face-to-face. Contact the school for details.

#### Adult Lectures & Workshops

These can be designed to meet the needs of any group. We can create lecture programs, design programs of exercises and review students games. Contact the school for details.

**Tournaments** We strongly encourage students to participate in tournaments sponsored by the school and by other local clubs through the American Go Association. These events are an important part of our students' development.

### WHY SHOULD KIDS LEARN GO?

Go can help children develop good habits of concentration and improve their reasoning ability. Studies have shown that Go requires a unique integration of left brain (analytic) and right brain (artistic) activity, making it ideal for nurturing a well-rounded mind. Playing Go can also give children an understanding of competition and a sense of fair play - valuable experiences on the road to maturity.

### WHO PLAYS GO?

Go is popular among men and women of all ages. Known as "**hand talk**" because it lets players communicate without words, Go is a great way to offer children a structured way to interact with older generations.
